Course description: This course introduces the study of language use in interactions. **Course objectives:** Upon completion of this course, students are expected to be able to:

- understand the definition and the scope of pragmatics;
- be familiar with the principles in pragmatics;
- analyze texts or conversations according to pragmatics principles.

Course format: lecture, in-class discussions, and group work

Course policies: It is crucial that students come to class regularly and fulfil the 75% attendance requirement. In accordance with the university policy, students who fail to fulfil the above requirement are not allowed to take the final test. Students who come 15 minutes late will be considered absent. Students who cannot come to class because of illness should contact the instructor ASAP.

Academic Honesty: Students are expected to submit their own work. In completing any written work, students MUST use appropriate citations for any information taken from books, web sites, or any other sources of information. Academic scholarship requires that a person acknowledges the work of other scholars by citing their work properly.
